COMMAND YOUR OWN ADVENTURE

PILOT THE NEMO YOURSELF

Experienced submersible pilots have been crucial throughout every design stage of our NEMO submersibles. This is the ultimate submersible to drive. Extensive research has been carried out over many years to deliver these state-of-the-art submersibles, the NEMO series.

SHARE THE FUN

Alongside a qualified NEMO pilot, anyone can take supervised control of the sub thanks to our unique MANTA Controller whereby you can easily hand over steering control to your fellow explorer.

VERSATILE DEPLOYMENT

**THE NEMO CAN BE DEPLOYED FROM LAND,
FROM A BOAT RAMP OR FROM A YACHT.**

At only 2,500 kg (5,510 Lbs) the NEMO is the lightest manned submersible ever conceived. With its low-profile lines, the submersible stands only 1.55 meters (4.8 feet) above the deck.

NEMO's lightweight and compact credentials create a turnkey solution ideally suited to yachts of all sizes. However, complementary beach launchers, towable car trailers, floating submersible houses and small support crafts have been developed to support submersible mobilisation. Submersible ownership for non-yacht owners is therefore also made possible.

STRENGTH IN NUMBERS

SERIES PRODUCTION

The NEMO submersible is the only series-produced submersible in the world. Whereas most submersibles are built-to-order. As a result of this series approach, you can become a NEMO owner starting at € 1,250,000.

SMALLEST FOOTPRINT

The NEMO submersible has such a compact design that it requires less storage space than two jet-skis.

ROBB REPORT & RED DOT DESIGN AWARD

BEST OF THE BEST

The NEMO submersible has been recognised with a Red Dot Award for design excellence, as well as being recognised as “best of the best” in the category ‘Mobility and Transportation’ and in the category ‘Marine’ for Robb Report.

“

**ONE OF THE STRENGTHS OF THE
NEMO IS THE STREAMLINED
ORDER AND TRAINING PROCESS.**

**AFTER ALL, YOU CAN'T WAIT TO
PILOT YOUR OWN NEMO!**

”

STEP ONE

CHOOSE AND CONFIGURE YOUR NEMO

The NEMO is a series-produced submersible, which means we are able to build these subs at a price point that is unprecedented in the industry. The NEMO can be personalised with a choice of lights, sonar, manipulator and 4K Camera.

NEMO

NEMO (BASE MODEL)

Colour	High-Gloss White
Interior	Black leather
Spotlights	2 high-intensity spotlights
Floodlights	1 high-intensity floodlight
Price	NEMO : € 1,250,000 Ex. VAT. *

* Ex VAT, Ex certification costs

ADDITIONAL LIGHTS PACKAGE

Two (2) High-intensity spotlights and one (1) floodlight are standard on the NEMO.

The additional lights package brings the total up to four (4) spotlights and three (3) floodlights.

€ 24,000 Ex. VAT.

SONAR PACKAGE

A high-tech sonar acts as a second pair of eyes, especially in low-visibility conditions. This is the most efficient and effective forward-looking imaging sonar system available today.

The dual-frequency sonar offering 120 metre range capability at 750 kHz and 40 metre range at 1.2 MHz. Ideal for navigation and high resolution imagery for near field target identification.

€ 38,000 Ex. VAT.

MANIPULATOR ARM PACKAGE

A fully-electrical 5-function or 7-function manipulator is installed on the submersible with the ability to retrieve small objects from the sea floor.

Starting from € 85,000 Ex. VAT.

UNDERWATER NAVIGATION PACKAGE

Upgrading to the Underwater Navigation Package equips the NEMO with a subsea tracking and navigation system, based on Ultra-short Baseline (USBL) technology.

The system ensures that the pilot and surface tracking computer have a real-time position on the NEMO.

€ 35,000 Ex. VAT.

VISUAL PACKAGE

The base colour of the NEMO is a high-gloss white exterior with black leather interior and NEMO logo in the headrests. An upgrade package is available which lets you choose a custom colour for the exterior as well as a customised interior colour scheme and custom logo's on the headrests.

€ 25,000 Ex. VAT.

4K CAMERA PACKAGE

Getting the best shots from each adventure in the deep is paramount. We offer a 4K Camera set-up for the NEMO with an internal control and record deck.

€ 69,000 Ex. VAT.

TRAINING AND CERTIFICATION

U-Boat Worx offers mandatory training and certification to NEMO owners.

DNV CERTIFICATION

40 METER CERTIFICATION

The Netherlands

Your NEMO submersible will receive DNV certification up to a depth of 40 meters initially as an interim certificate.

Delivery Ex. works, excluding transportation and shipping cost to location.

100 METER CERTIFICATION

At Client Location

Following this interim certification, your NEMO must undergo further certification to ensure its suitability for diving depths of up to 100 meters.

This certification process can take place at a location chosen by the client but must be completed within 6 months of obtaining the interim 40-meter certification.

€ 60,000 Ex. VAT.

TRAINING

2 PILOTS - 1 SURFACE OFFICER

At Client Location

Upon completing the certification for your NEMO submersible, the subsequent step involves training.

We offer a two-week training course for up to 2 pilots and one surface officer at a location chosen by the client.

€ 35,000 Ex. VAT.

SPARE PARTS

BASIC SPARE PART PACKAGE

Included

Starting with our fundamental option, the Basic Package comes as a standard inclusion with your purchase, providing essential support for your NEMO's maintenance and upkeep.

COMPREHENSIVE SPARE PART PACKAGE

For those seeking enhanced coverage and support, we present the Comprehensive Package. This option offers an expanded array of components for maintenance and upkeep.

upgrade from basic € 20,000 Ex. VAT.

EXTENSIVE SPARE PART PACKAGE

This extensive package goes above and beyond, delivering an range of components to ensure maximum upkeep and longevity for your NEMO submersible.

upgrade from basic € 40,000 Ex. VAT.

STEP TWO

ORDERING YOUR NEMO

When you have selected the options you would like added to your NEMO submersible, you will be ready to order. Your NEMO will be built in a series approach, ensuring a much faster delivery time.

STEP THREE

BECOME A PILOT AND RECEIVE YOUR OWN NEMO

Ordering your NEMO is one thing, becoming a qualified pilot is another.

U-Boat Worx offers certified training courses to any purchaser who orders a NEMO submersible.

The training consists of 2 weeks full-time training at our facility, Sub Center Curaçao (SCC). Here you will learn everything you need to know to become a certified submersible operator.

After you have completed the requisite training, you will be handed the keys to your own NEMO submersible, subject to prior qualifications gained as a pilot.

Your NEMO submersibles is standard delivered to our Sub Center in Curaçao, where you will also enjoy your training. Alternative delivery and training locations can be offered on request.

STEP FOUR

ADVENTURE AWAITS

After requisite pilot training, you will be ready to set out and explore in your own NEMO submersible.

Time to command your own adventure.

NEMO LAUNCH SOLUTIONS

"Choose your solutions"

NEMO has partnered with different vendors around the world to bring you turn-key solutions for operating and launching your NEMO.

BEACHLAUNCHER

“Launch your NEMO straight from the beach”

In conjunction with our partner Beachlauncher, we have developed a solution to launch your NEMO from the beach.

This chain-driven, wireless remote-controlled Beachlauncher is capable of launching the NEMO in minutes.

Starting Price: € 60,000

NEMO TRAILER

“Launch and recover the NEMO submarine from standard slipways found in most marinas”

We have developed a system to launch and recover the NEMO submersible from standard slipways found in most marinas. When it comes time to haul your NEMO, you need a functional trailer that will take care of your precious cargo.

Our heavy-duty galvanised and aluminium trailers are built to endure the punishing environmental stresses of marine and road use season after season without corroding. The trailer can be tailored to your requirements and is specified to your local road regulations.

Starting Price: € 40,000

LARS CONTAINER

“Launch and recover the NEMO submarine from a container”

We supply a bespoke solution for a fully fitted storage container with an overhead crane system to support launch and recovery of your NEMO.

The NEMO submersible, operational equipment and support systems can all be stored in a 20ft or 40ft container to ensure maximum space utilisation. The LARS container can be adapted for use on a truck or a ship's deck.

Starting Price: € 50,000

BOAT HOUSE

“Launch, recover and store the NEMO submarine at your boat house”

We have partnered with a number of custom boat house builders that will help build your NEMO's ultimate waterfront home.

Launching and storing your NEMO submarine will never become easier. Challenge us to bring your family's vision for the most remarkable boathouse to life!

Price On Request

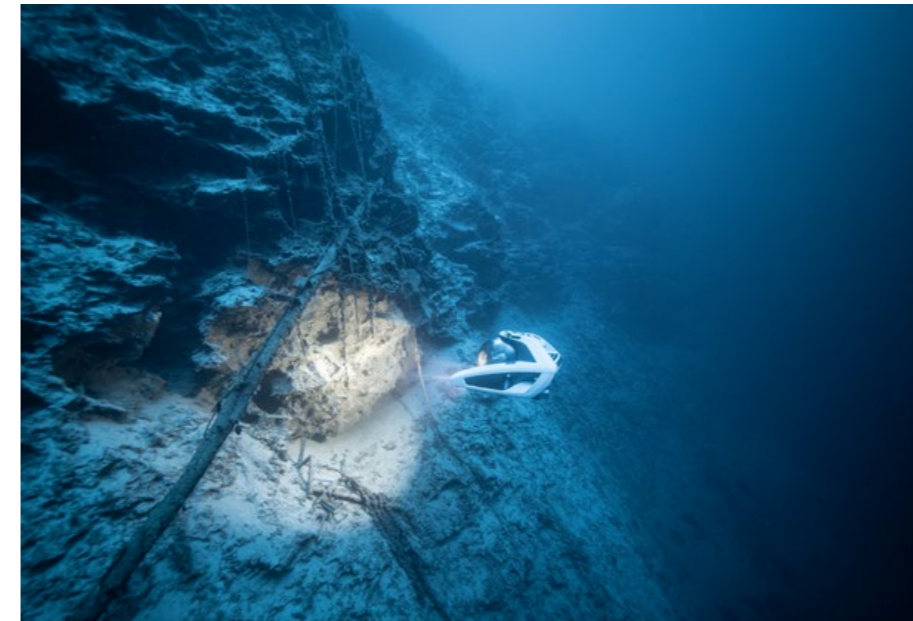

NEMO LIFT

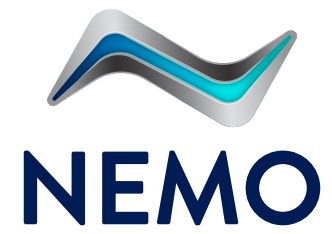

“Reliable NEMO lifts that can be used in either fresh or salt water”

The NEMO docklift is the easiest solution to extend your waterfront property with submarine capabilities.

Over-engineered for maximum safety and over-built for superior durability, the NEMO docklifts withstand the effects of brackish and saltwater for the years to come.

Starting Price: € 35,000
